Daiken Miri provided a factory tour to PPKS, (Sijil Kemahiran Malaysia – EE-320-2 Pemasangan Dan Penyelenggaraan Elektrik Satu Fasa, Tahap 2) which is a group of young student who are taking a technical certification course of Single Phase in Electrical Installation and Maintenance. The group of attendance consist of 50 students and also 3 lecturer who guide them throughout the factory tour. The purpose of their visit is mainly to understand how is the electrical device and component work in tandem with the manufacturing process.
