Miri Vocational College students recently made an educational visit to Daiken Miri Sdn Bhd on 5/5/2018. The attendance group consisted of 20 students and 3 lecturers. The purpose of the site visit was to give students an opportunity to observe the MDF manufacturing process and learn about safety and factory management. The student managed to witness the process of making MDF from the Chip Process Section until the process ended in the Warehouse. In addition, students were exposed to safety and health practices at Daiken Miri Sdn Bhd.
