

FAMILY DAY OUTING TO BORNEO TROPICAL RAINFOREST RESORT, MIRI

30 March 2019

On 30/03/2019, Daiken Miri (DMR) had organized a Family Day outing to Borneo Tropical Rainforest Resort in Lambir, Miri. This event was opened for eligible DMR staff and their immediate family members, as part of the activity for its Safety & Health Month.

The purpose of the company conducting this program is to encourage the staff to spend more quality time with their family members while being away from work. At the same time, DMR members can take this opportunity to rejuvenate their body and spirit by relaxing in the midst of pristine and lush tropical rainforest of the Lambir Hills. All in all, the event managed to draw more than a hundred participants, both staff and their families' members.

Participants started to arrive at the resort as early as 07.30am. They were first treated to breakfast at the One Tree Hill Café. After breakfast, participants were given an introduction to the resort by the resort staff. This was followed by a discovery tour of the resort by using the resort's farm trailer and boat ride. The participants also stop by the domestic farm and had close interaction with the domestic animals at the farm, which prove to be a rare experience for the children nowadays. The discovery tour ended with a nature walk to the waterfall before coming back to the resort.

After a sumptuous lunch, participants were then treated to various recreational activities available at the resort, such as going for pony rides, kayak, fishing, enjoying the Flying Fox and so on. Others headed to the swimming pool to enjoy a cool refreshing swim while the kids spent the afternoon winding down slides at the water park.

After enjoying another round of meal (the afternoon snack), everyone went home tired but content after a long day at the resort.
